

Tips & Tricks

Paragon Desktop 1 Initial Download

There are many scenarios that might require you to do an Initial Download. For instance if you would like to change the areas you are including in your daily download, you will need to do a new Initial Download. This guide is designed to show you how to do an Initial Download.

1. Make sure you are logged off of Paragon Desktop 1. You must be logged off in order to perform an Initial Download.
2. Click on “Tools” -> “Utilities” -> Initial Download

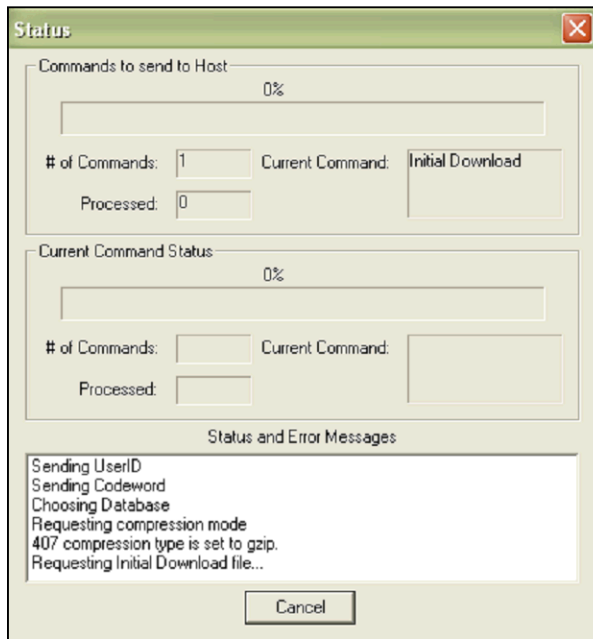

3. You will need to put in the Hostname, Company Code, Username and Password. Your board office will have all of this information.

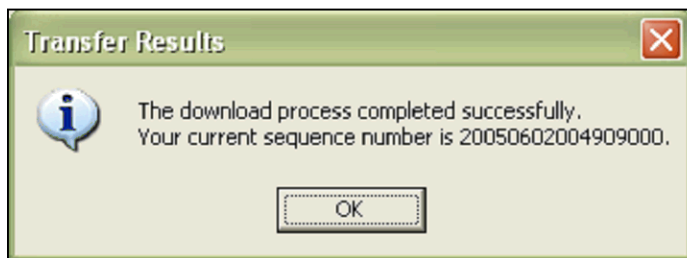

The 'Initial Download' dialog box contains the following fields and options:

- Host Name: [Text Field]
- Company Code: [Text Field]
- Username: [Text Field]
- Data Directory: [Text Field] (Y:\ParagonData\pa2 Data\Mehta)
- Password: [Text Field]
- Picture Directory: [Text Field] (C:\Program Files\Voyager2\Pict)
- Radio buttons: Don't dial - connect over the network, Dial the server
- Dial entry: [Dropdown Menu]
- New Entry... [Button]
- Properties... [Button]
- Dialup Username: [Text Field]
- Dialup Password: [Text Field]
- Dialup Domain: [Text Field]
- OK [Button]
- Cancel [Button]

4. Once you have entered all of the required information and clicked on the “OK” button you will see the download processing:

5. Once the download has completed you will see a box with your transfer results:

6. Log in to Paragon Desktop 1 with your Username/Password

Good luck with this tool!
